## In The Future (Tai and Sora & Matt and Mimi)

As Sora and Tai talked inside their tent, kari, T.K., and Joe spyed on them. They were talking about how much they love each other and other smoochy stuff like that. Joe and kari looked strange at each other but T.K. thought it was interesting, he said he had never heard stuff like that before, and mainly because they talked about things like making out and other things that T.K. would not now about, but kari seemed to know, I was nothing bad. Just making out and french kissing and other things like that! Joe started laughing when Tai and sora started talking about something that T.K. and Kari were too young to understand. (Nothing Gross!) In the meantime back in Mimi's tent, Matt had snuck in and they were making out. Tai and sora at that time had came out of the tent and saw in the shadows that Matt and Mimi were doing something, they just didn't now what? they snuck up and jumped in the tent, Matt was on the floor with mimi on top of him and they were kissing. They laughed so hard they didn't now what hit them! They were embarresed, but they all finally found a boyfiend/girlfriend. The good thing is, a girl came from out of the woods and kissed joe on the cheek, and they also lived happely ever after, her name was jess. .....This was a short Romance Story, and may be adding to it in the past.....
